RECORDED

Malted

A.D. 1884, 23rd MAY. N° 8106.

Improvements in the Manufacture of Brown Bread.

PROVISIONAL SPECIFICATION.

I, JEREMIAH POINTON, Horsforth, in the County of York, Baker, do hereby declare the nature of my Invention for "IMPROVEMENTS IN THE MANUFACTURE OF BROWN BREAD" to be as follows:—

This Invention consists in the manufacture of brown bread from a mixture of granular wheat meal, and malt. I prefer to use the malt in proportion of about one and a half pounds of malt to one stone of granular wheat meal.

Bread made from granular wheat meal and malt, as above described, will be more agreeable to the palate, easier of digestion, and more nourishing; and will keep moist much longer than ordinary brown bread.

Dated this 21st day of May 1884.

JEREMIAH POINTON.

[*Price* 2*d.*]

COMPLETE SPECIFICATION.

I, JEREMIAH POINTON, Chapel Green, Horsforth, in the County of York, Baker and Confectioner, do hereby declare the nature of my Invention for IMPROVEMENTS IN THE MANUFACTURE OF BROWN BREAD, and in what manner the same is to be performed to be particularly described and ascertained in and by the following statement:—

This Invention consists in the manufacture of brown bread from a mixture of granular wheat meal and malt. I prefer to use the malt in the proportion of about one and a half pounds of malt to one stone of wheat meal.

In the manufacturing of this bread I make a sponge of the wheat meal with about one third of the water required in the mixing of a given quantity. I then thoroughly mix the malt with water, then pour the mixture into a tin or iron vessel; next place it over a slow fire or gas stove, where I carefully stir it until within a few degrees of boiling point. Next I add sufficient water to make up the required two-thirds.

When the sponge is ready add the malt thus prepared, also a little salt, then knead in the usual way. When risen it is then fit for baking.

Having now particularly described and ascertained the nature of my said Invention, and in what manner the same is to be performed,

I declare that what I claim is, "the manufacture of bread from wheat meal and malt, substantially as above described."

Dated this 17th day of September 1884.

JEREMIAH POINTON.
